CQG Announces Certified API Partner Program

Denver, CO, November 12, 2009 – CQG, Inc., the industry-leading order execution, charting, and analytics provider for global electronically-traded futures markets, today announced that it has launched a Certified API Partner Program.

CQG API Partner Certification provides programmers, developers, and vendors the opportunity to become Certified API Partners with CQG. CQG certification indicates that the partner has demonstrated expertise in working with either the CQG Data API or the CQG Trading API. The API Partner Program launches with Certified Data and Trading API partners 4th Story, Progress Apama and Strategy Runner. Market Delta is CQG's first Certified Data API partner.

"We are encouraging third-party application providers to partner with us to reach more customers by leveraging our sophisticated order execution, powerful charting and analytics, and comprehensive market data," said Yuriy Shterk, Vice President of Product Development. "We are committed to supporting these partnerships to meet mutually beneficial business goals."

Certified CQG API Partners will enjoy a host of benefits including joint marketing exposure, discounts on CQG systems, membership in a private social network, and access to Level III support and CQG developers. More information about CQG's Certified API Partner Program can be found at www.cqg.com/Products/CQG-API/Certified-Partner-Program.aspx.
