## **CQG and Velocity Futures Partner to Expand Worldwide Futures Trading Connectivity**

Denver, CO, October 13, 2009 –Velocity Futures, a global Futures Commission Merchant (FCM) that provides active traders with connectivity to electronic futures markets, will provide its customers and internal trading desks with access to CQG, Inc.'s advanced trading platforms, the companies announced today.

The partnership with CQG, a trade execution, market data, and analytics provider for global electronically-traded futures markets, allows Velocity Futures to meet increased demand for professional futures trading software from active high volume retail and proprietary futures traders.

"CQG is pleased to add Velocity Futures to our growing list of FCM partners," said Mike Glista, Director of Order Routing at CQG. "The addition of CQG's robust managed DMA and advanced analytics to Velocity Futures' suite of trading platforms will provide their traders with new powerful tools for profitable futures trading."

Customers clearing through Velocity Futures will have access to CQG's advanced electronic trading via the CQG Trader and CQG Integrated Client platforms. Velocity Futures traders will be able to route orders to CME Globex, CBOT, NYMEX, COMEX, ICE Futures US, ICE Futures UK, and Eurex.

"Today customers are requiring several different options for trading and CQG has established itself as a premier charting platform for high volume traders, which is our specialty," said Jack Earnest, CEO for Velocity.
