Routing Solutions

CQG Hosted Exchange Gateways deliver the fastest order routing connections in the industry.

Global Connectivity and Direct Market Access
CQG delivers Hosted Direct Market Access to exchanges around the world. CQG is connected to over seventy-five market data sources and more than forty exchanges for electronic trading. Buy side or sell side, forex or futures, equities or energy, foreign or domestic, CQG connects you to the markets.

Server-Side Speed
CQG’s server-side tools eliminate the impact of geographic latency to give traders optimal order execution. Spread orders, orders into aggregated markets, and smart orders are managed on CQG servers co-located with exchange matching engines. CQG installs state-of-the-art servers and network equipment that is monitored around the clock, ensuring an optimal experience trading complex strategy orders.

Turnkey Enterprise Solutions
CQG’s trading solutions are easier to deploy, require less capital investment, are less expensive to maintain, and deliver market-leading performance and reliability. CQG-operated market data and exchange networks reduce your overhead. CQG’s risk engine gives you maximum control over customer accounts. Ease and speed of implementation and dedicated CQG support increase your operational efficiency.

Award-Winning Customer Support
At CQG, we know that service is most important to our customers. Our award-winning customer support teams operate from ten locations across the globe and strive to exceed customer expectations twenty-four hours a day. Our customer support is backed by product development staff in four countries, our product specialists, and our data quality and operations teams. We go the distance to ensure the quality and performance of our electronic trading networks.

Electronic Trade Routing
Each smart order has unique features designed to aid the trader in better order and trade management. Smart orders include:

- DOM-triggered stop/stop limit
- Trailing limit
- Trailing stop/stop limit
- Bracket
- Order-cancels-order

Order Routing Connections

Today’s trader needs reliable, high-speed access to electronic markets. The CQG Hosted Exchange Gateways provide our customers with low-latency connections to over forty major cash and futures exchanges. CQG manages direct market connections for over one hundred FCM environments, enabling them to focus on core trading operations and customers.

Sophisticated Front-End Trading Tools
