

Foreign Exchange

CQG: Three powerful FX data feeds.

With CQG tools, traders can analyze any foreign exchange cross or spread. CQG sources provide accurate price information for FX.

EBS Provided by CQG

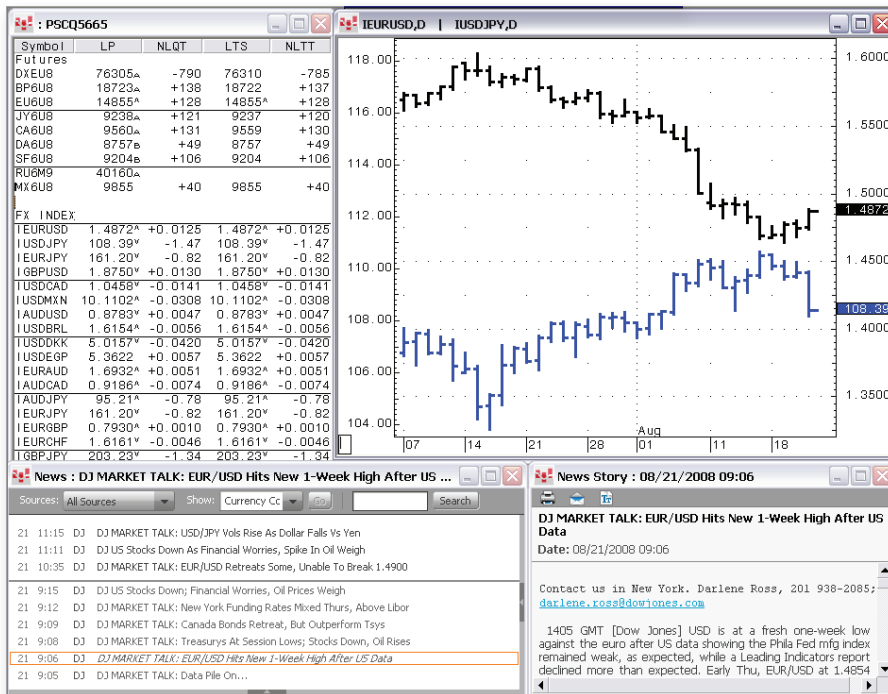

- EBS is the leading broker of interbank spot Forex transactions.
- EBS provides access to the most accurate foreign exchange data available.
- EBS is the premier source of liquidity in EUR, USD, JPY, and CHF spot rates.
- With EBS, traders have access to bid, ask, and last-traded price data.
- CQG's EBS offering includes historical data from 2000 to the present.

CQG FX Index

- The CQG FX Index is perfect for traders who need accurate Forex charts but aren't trading Forex.
- The Index offers a managed historical database for the most accurate foreign exchange data.

CQG Comprehensive FX

- The CQG Comprehensive FX feed is an ideal choice for traders executing foreign exchange orders.
- Comprehensive FX includes CQG FX Index prices.
- The feed also has indicative prices (bid-ask spreads), from 100 banks worldwide.
- Comprehensive FX data is filtered for optimal use.
- CQG uses the midpoint of bid/ask spreads to display indicative prices.

CQG's three foreign exchange data feeds are designed to optimize your FX workflow.
