

MNI Main Wire

MNI's Main Wire delivers real-time intelligence for global markets in scrolling headline format backed by in-depth stories. From analysis to breaking news, the Main Wire keeps you ahead of the market.

Main features

- **State of Play:** an assessment of current monetary policy thinking at the major central banks
- **Talk from the Trenches:** a daily report from bond trading floors providing an insider's gauge of financial mood swings – what is driving the market and what is on the radar
- **Reality Check:** an exclusive and widely followed report on business conditions in key sectors; the stories, based on conversations with auto dealers, homebuilders, durable goods makers and others, help readers understand the direction of the economy and anticipate official economic data
- **Stone & McCarthy Research:** in-depth analysis and interpretation of the issues that drive the markets
