

CQG Trend

New this month from CQG:

- Expanded Asia Pacific Trade Routing
- Tullett Prebon Information and CQG Broaden Historical Data Access
- Valuable Resources at the CQG Downloads Page
- CQG's Presence at the FIA Expo

Quick Tip

CQG's Quote Board, Market Watch, Last/Net Change, and Custom Quote Board can display more than just market quotes. Spreads and ratios can be listed, such as the spread between the E-mini S&P 500 and the S&P 500 cash index (EP-SPC). To display the same spread in the Enhanced Quote Spread-Sheet, the formula is EP-SPC!LQT.

Expanded Asia Pacific Trade Routing

CQG now offers access to nine industry leading Asian exchanges via Calyon Financial. Customers can utilize CQG's high performance trading platform to route orders to:

- HKFE
- KFE
- KSE
- OSE
- SIMEX
- TAIFX
- TIFFE
- TOCOM
- TSE

TPI Historical Data Web Site

Tullett Prebon Information has launched a new Web site using CQG Data Factory infrastructure for the resale of historical market data at www.tphistory.com. TPI's extensive historical market data content will now also become available at www.cqgdata-factory.com.

TPI's content currently includes Sovereign Debt, Money Markets, and Interest Rate Derivatives. Historical data is offered through the site in tick-based, hourly, or end-of-day frequencies. TPI will continue to enhance the content offering by incorporating more of its market data into the CQG historical data sales site.

CQG Downloads Page

Check out www.cqg.com/downloads to instantly download the latest versions of the CQG Integrated Client and CQG Trader. You will also have the opportunity to access the New Features User's Guide, Quick Reference Guide, What's In It For You document, and Component Pacs.

FIA Futures & Options Expo

CQG will be attending the Futures Industry Association Futures & Options Expo in Chicago on November 27 - 29. Visit us at booth #204 to see our latest versions and innovations.

Coming Soon: CQG 7.6!

CQG version 7.6 brings features and enhancements to make your trading and market analysis seamless. New features include order routing from within the Quote SpreadSheet and improved workflow efficiency with linked windows.

Get in and out of the market quickly and easily by trading directly from a **Quote SpreadSheet**. The enhanced display lets you see your position, open orders, and OTE as well as buys and sells across markets.

Window links provide the opportunity to link over a dozen CQG windows so that entering the symbol or price in the master window automatically populates all linked windows. For example, link your Charts to the Quote Board and the Charts will

change symbols when a different symbol is selected within the Quote Board.

Other new features in 7.6 include:

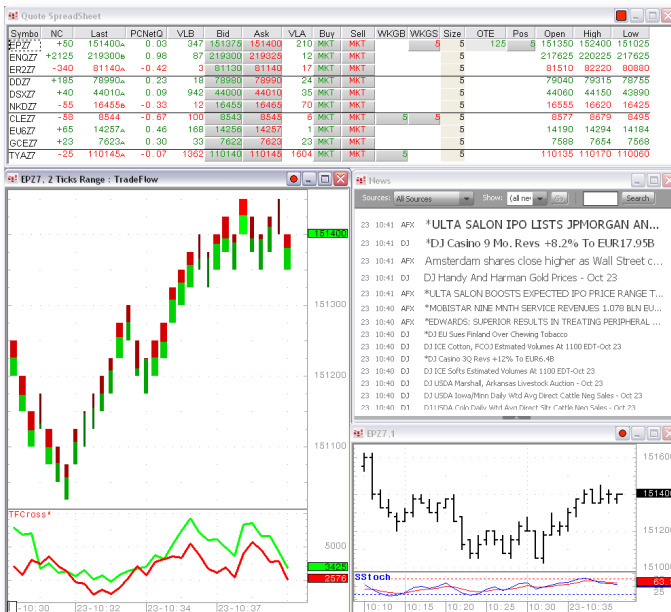

- Improved News preferences and search functionality
- Enhanced Orders & Positions window
- Variable tick size in the order routing interfaces
- Mortgage-backed securities wildcard symbol support
- Portfolio Time & Sales
- Spread position information

Visit www.cqg.com/cqg76 for more information.

Trading and investment carry a high level of risk, and CQG, Inc. does not make any recommendations for buying or selling any financial instruments. We offer educational information on ways to use our sophisticated CQG trading tools, but it is up to our customers and other readers to make their own trading and investment decisions, or to consult with a registered investment advisor.

CQG Integrated Client
