

CSpec

You can obtain symbol data using the CQG Integrated Client Contract Specification (CSpec) window.

It provides contract properties and trading hours for futures, cash, currencies, indices, reports, stocks, and fixed income instruments.

The screenshot shows the CSpec window with the following sections:

- Navigation:** Futures, Cash, Currencies, Indices, Reports, Stocks, Fixed Income
- Description:** Corn (e-CBOT)
- Symbol:** ZCE
- Exchange:** e-CBOT
- Exchange Abbreviation:** e-CBOT

- Notes:** (Empty text area)

The exchange fields contain all available exchanges. The symbol fields contain the available instruments on the selected exchange.

Use the dropdown lists to select the symbol and exchange, or type your selection and then **Enter**.

To open CSpec, click the CSpec button on the toolbar.

If the button is not on your toolbar, click **More** and then **Contract Spec**.
