

# CQG Trader

**CQG's high-performance market data and electronic trading application.**

CQG Trader is the perfect execution platform for traders who don't require technical analysis tools. Take advantage of this powerful application to view market activity, place orders, and

track orders and positions. Many of CQG's FCM partners offer CQG Trader as an order entry and account management front end. Contact your FCM, and ask for CQG Trader.

CQG Trader provides DOMTrader®, Quote Board, and Orders and Positions.

## Customizable Three-Pane Layout

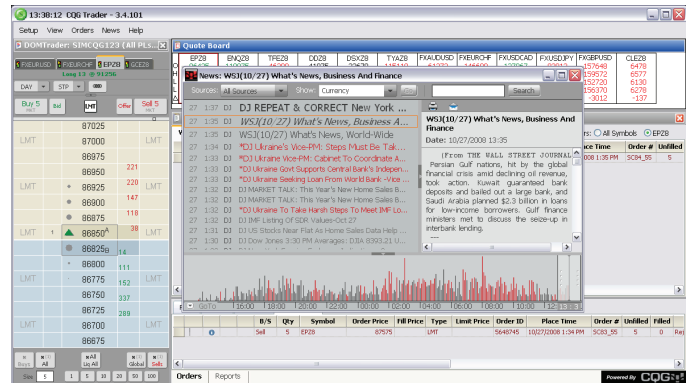

- Professional order routing tools:
  - DOMTrader: Provides market transparency and intermarket and multi-market trading functionality
  - Order Ticket: Includes buy/sell buttons and enhanced visibility of the net change and volume
  - Quote Board: Displays the open, high, low, and close values
- Orders and Reports summary displays:
  - Account summary
  - Cancelled orders
  - Exceptions
  - Filled orders
  - Open positions
  - Parked orders
  - Purchases
  - Sales
  - Working orders

## CQG News

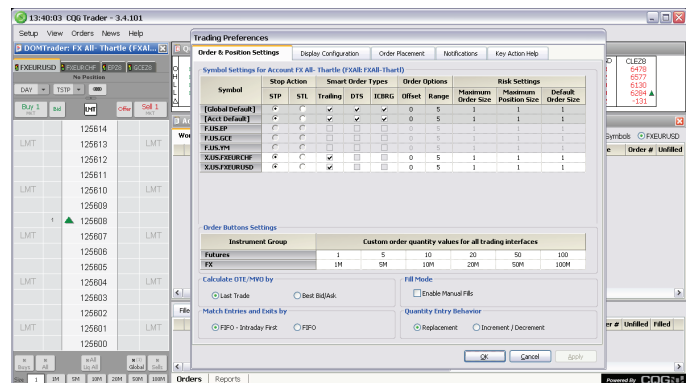

- With news feeds in CQG Trader, customers can track market-moving events and monitor their trading decisions.
- News feeds include:
  - Dow Jones Newswires
  - The Hightower Report
  - Interfax News
  - Market News International
  - Need to Know News
- The cutting-edge feature displays headlines with varying font sizes, highlighting the most current news releases.
- Keyword search allows traders to browse news releases based on their trading needs.
- Traders can adjust CQG News preferences to display the story pane, timeline, and recent headlines in scroll mode; to adjust color schemes; and to highlight keyword searches.

## Additional Features

- Customers interested in FX can trade non-even amounts of currency and easily manage orders and positions using large-quantity abbreviations.
- CQG supports these order types and durations:
  - Day
  - Fill and kill
  - Fill or kill
  - Good-till-cancelled
  - Manual fills
  - Order-cancels-order
  - Stop
  - Stop limit
  - Trailing stop
  - Trailing stop limit
- DOM ladder compression is available for thinly traded electronic markets.
- Fills executed outside the CQG Hosted Exchange Gateways, such as pit trades, may be entered in the Orders and Positions window.
- Net open trade equity for related futures and options positions can be displayed.

With CQG News, traders can browse real-time, market moving releases and use the news feeds as their basis for trading.

FX trading preferences include new size options, which allow customers to set exact order sizes.
