# CQG Direct Connection

The fastest CQG connection available.

CQG Direct is a CQG-managed solution offering direct connectivity to CQG market data and order execution systems. Customers are required to house the CQG-provided termination equipment at the co-location facility providing the connectivity.

Connection Diagram

Benefits
- Direct access to CQG trading gateways
- Dedicated market data servers
- Low latency
- Highly reliable
- CQG-managed connection
- Connectivity to hosting cabinets for black-box trading

Circuit Specifications
- 100 Mb Ethernet hand-off
- 1 Gbps hand-off, 100 Mbps port, multimode (for runs over 100 Mb)

Access
- CQG market data distribution system
- CQG order execution systems (gateway)

CQG

Establishing CQG Direct Connectivity

1. Lease rack space at a CQG-approved co-location.
2. Submit an access request form with rack information.
3. CQG will receive the form and process the paperwork.
4. CQG will order the cross-connects.
5. CQG will schedule a turn-up date for connectivity with a customer technical contact.
6. Upon the successful test, CQG will notify the customer of completion, and billing will commence.

Requirements

- Provide CQG with three IP addresses: two for routers and one for HSRP.
- Provide one IP address on the same subnet; traffic will be routed back to CQG.
- Route all traffic for 64.208.51.64/27 to the CQG-HSRP address.
- Four units of rack space.
- Four 120/20 power outlets.
