CQG Partners with Broco to Expand Trading Connectivity in Russia and Eastern Europe

Denver, CO, July 21, 2010 – CQG, Inc., the industry-leading order routing, charting, and analytics provider for global, electronically-traded futures markets, and Broco, one of the most prominent international brokerage companies operating in the field of Internet trading, today announced that Broco will make CQG's trading software available to its customers and internal trading desks throughout Russia and Eastern Europe.

"Broco's customers and traders will benefit from our world-class performance, speed, and reliability," said Mike Glista, CQG's Director of Order Routing. "Access to our advanced trading solutions through Broco is another important step forward in expanding our reach in Russia and Eastern Europe."

The partnership allows Broco to meet increased demand for professional futures trading software from buy-side firms and other high-volume traders. Customers clearing through Broco will have access to CQG's leading decision-making tools, accurate consolidated market data, and advanced electronic trading via the CQG Trader and Integrated Client platforms to route orders to CFE, CME Globex, EUREX, ICE US, ICE UK, NYSE Euronext Liffe, MATIF, and RTS.
