## CQG and Continuum Announce Global Connectivity with NinjaTrader, LLC

Denver, CO, February 8, 2011 – CQG, Inc., the industry-leading order execution, charting, and analytics provider for global, electronically-traded securities, today announced its collaboration with NinjaTrader, LLC to allow global connectivity between their systems. The collaboration gives traders using the NinjaTrader 7 platform the ability to connect to CQG’s network exclusively for AMP Global Clearing.

“Now, NinjaTrader’s customers clearing through AMP Global Clearing can take advantage of CQG’s global trading gateways and industry-leading streaming quotes with low-latency connectivity,” said Mike Glista, CQG’s Director of Order Routing and Vice President of Continuum. “The Continuum division of CQG continues to expand its offering with this innovative enterprise solution.”

In addition to providing access to CQG’s trading gateways and market data through this integration with NinjaTrader, CQG provides pre-trade risk capability, exchange compliance, and exchange reporting.

“The integration of our award-winning trading platform to the CQG global network is in line with our strategy to offer traders choice in data and brokerage,” said Raymond Deux, Founder and CEO of NinjaTrader, LLC. “This technology solution, coupled with AMP’s outstanding reputation, will serve the retail trading community well.”

“For years, customers have been asking for this type of trading solution. This now allows the retail trader to have access to institutional quality data and order routing through NinjaTrader. The whole AMP team is excited to offer this to our customers,” said Dan Culp, President of AMP Global Clearing.

### **About CQG, Inc.**

CQG, Inc. provides the industry’s highest-performing solution for integrated trade routing, global market data, and advanced technical analysis. CQG partners with more than fifty Futures Commission Merchants and provides Direct Market Access to more than forty exchanges through its worldwide network of collocated CQG Hosted Exchange Gateways. CQG’s market data feed consolidates over a hundred sources, including exchanges worldwide for futures, options, fixed income, foreign exchange, and equities as well as data on debt securities, industry reports, and financial indices. CQG is headquartered in Denver, Colorado with sales and support offices worldwide. For more information about CQG, please call 1.800.525.7082 or visit [www.cqg.com](http://www.cqg.com).
